The Company's learning center network currently covers 69 key cities in China.

Analyst View:

Rise in awareness of the importance of education is a major factor that is positively contributing to the revenue growth of the online tutoring market. Several adults regenerate their education goals through the online tutoring process. The acceptance of the online tutoring market is also projected to grow due to its easy access benefits as well as the user-friendly design of these applications.

The global online tutoring market is projected to expand in terms of revenue due to the growing emphasis on entrance exams. The difficulty level of entrance exams leads students to invest in online classes which will guide them with features such as - class's on-the-go, live Q&A sessions, the accessibility to download lectures, etc.

Key Market Insights from the report:

The global online tutoring market accounted for US\$8.131498 billion in 2020 and is estimated to be US\$ 33.84371 billion by 2030 and is anticipated to register a CAGR of 15.3% The market report has been segmented on the basis of type, application, and region.
